## Ohio House Handed First Of Measures

**19 Bills Are Dropped In Hopper Following Message By DiSalle**

COLUMBUS, Ohio (AP) — The Republican-run 1961 session of the legislature finally is in orbit. Democratic Gov. Michael V. DiSalle kicked the session off the ground with an almost-mild state-of-the-state message recounting accomplishments and hopes for future cooperation with the GOP lawmakers.

The second-stage rocket was the start of introduction of bills in the Ohio House. Nineteen meas-

ures—some of them politically explosive—were dropped in the House hopper.

How "far out" the session eventually gets depends upon the booster power of future developments. Those developments could send things "way out, or, on the other hand, the seasoned Republican leadership could call the whole thing off before conditions get too rough.

The Senate Tuesday received no bills, but took under several constitutional amendment proposals. Both houses scheduled sessions at 1:30 p. m. today, indicating plans for a four-day work week this week, ending Thursday.

One of the constitutional proposals, offered by Senate Judiciary Committee Chairman Fred L. Hoffman, R-Hamilton, would give the voters a chance to decide whether the governor should have the power to reduce appropriation items and veto certain sections of other bills rather than the entire bill. He now has the power to veto—not reduce—items in appropriation bills. On other bills, the governor now must veto entire measures if they contain even a single word he cannot stomach.

The House received a proposed constitutional amendment from a group of Cleveland Democratic legislators designed to end rural and smalltown control of the Ohio House. The constitution now provides that every county, no matter how small, must have at least one representative in the House. The big-city proposal would provide that provision and permit the state to revert to election of representatives by districts based on population, a move which would increase big-city representation.

Three of the House bills dealt with Gov. DiSalle's proposal in a special session late in 1960 to increase the maximum unemployment benefit period from 26 to 39 weeks. The governor lost his bid for a temporary extension of the benefit period.

The bills introduced Tuesday approach the problem in different ways: One provides an automatic "trigger clause" which would extend benefits whenever unemployment reaches a certain level; another would extend the maximum period now on an emergency basis until the legislature can decide upon a permanent solution; the third would extend the benefit period permanently.

Another major bill attacked the problem pointed up last year when Gov. DiSalle ordered a study of the collectibility of thousands of unpaid bills for patient care in state institutions. The proposed measure would require that in no case shall such charges be permitted to cause hardship among responsible relatives.

**REUNITED AFTER 15 YEARS.** Two brothers, survivors of Dachau, were reunited at San Francisco Tuesday. Here, brothers Joseph Leblond (back to camera) and Andre Blau embraced after 15-years' separation as Leblond's wife, Erna, looks on. Leblond returned to Romania where he had owned a manufacturing company and was trapped behind the Iron Curtain. They were finally reunited by the International Rescue Committee. (UPI Telephoto)

## Hancock Jury Indicts 10 In Brief Session

**Defendants Face 15 Charges; Chester Man Cited In Assault**

The Hancock County Grand Jury returned 15 felony indictments against 10 defendants in its one-day session Tuesday in Circuit Court chambers in New Cumberland.

Nine are charged with breaking and entering. A felony indictment charging felonious assault was returned against a Chester man.

The grand jury session was the first for Judge Ralph Pryor and Prosecutor Atty. Floyd Tarr. Judge Pryor said all of the defendants have been ordered to return to court Monday, when motions will be heard and trial dates set.

Two indictments were returned against Russell Leightner, 20, of West Point and Arnold Scogin, 20, of Springfield, Ill., on charges of breaking and entering a maintenance shed at Waterford Park race track Oct. 4.

The court assigned Atty. Tom McKenzie of New Cumberland to represent Scogin, and Atty. Clarence J. Spitznogle for the West Point man.

John F. Ward, 32, of Adolphus St., Chester was named in a felony indictment charging him with assault of Patrolman Clarence Lennens of Chester June 11. Atty. A. J. Rosenshine of Weirton was assigned as Ward's counsel.

The grand jury returned three felony indictments against Curtis Lee Young of Weirton, charging breaking and entering.

Two indictments each were returned against Steven Roy of Weirton, Samuel Trimmer, 21, of Steubenville, and Phillip Gregory, 20, of Weirton, and one each against Herbert Barkley of Paris, Lester E. Bennett of Colliers, and William Farr of Weirton, all charged with breaking and entering.

Gregory pleaded innocent to charges of breaking and entering.

## Police Follow Slim Leads In Nabbing Thief

Armed only with a description of the suspect's 12-year-old car, two East Liverpool officers Tuesday night were able to arrest a man wanted for the "Good Samaritan" theft of a tire from a nurse's car in the City Hospital parking lot Christmas night.

Patrolmen William A. Devore and Floyd Hedderston nabbed Rolfe Devore, 24, of Mt. Vernon, whose black and red 1948 Chevrolet club coupe was parked outside the home of Ohio Ave. relatives whom he and his wife were visiting.

Devore admitted that he was the man who stole a snow-tread tire from the car of Mrs. JoAnn Lisk, 1049 St. George St., by pretending that he would take it to a service station for repair, then return it.

Devore admitted to police that he deflated the tire on the vehicle, intending to steal it. Then when Mrs. Lisk approached, he pointed out the flat, offering to take it for repair and return it. She waited about two hours, but he did not return.

Pleading guilty today before Municipal Judge Samuel M. Chertoff on a charge of converting the tire to his own use unlawfully, Devore was given a suspended 30-day term in the County Jail and ordered to pay the \$6 costs.

Officer Devore explained that Mrs. Lisk gave police a description of the old car following the theft—the only clue the police had to follow. But since the number of black and red 1948 Chevrolet club coupes in East Liverpool is comparatively small, the police checked each suspicious vehicle until they found the right one.

Questioned by the judge, Devore said he is married, the father of three children and unemployed. Then the judge asked Mrs. Lisk if she believed Devore should go to jail. When Mrs. Lisk replied in the negative, the judge imposed the suspended sentence.

Police said Mrs. Lisk's missing tire was found on Devore's auto. Meanwhile, she has been reimbursed.

## Barron Asks Quick Boost In Sales Tax

**Emergency Increase Would Start Sunday To Aid Unemployed**

CHARLESTON, W. Va. (AP) — Members of the 55th West Virginia Legislature had a major tax proposal awaiting them when they took their seats today for the start of what promised to be a momentous 60-day session.

In a terse, 64-minute television-radio speech Tuesday night, Gov.-elect W. W. Barron called for a temporary increase in the consumers' sales tax starting Sunday "to meet the present emergency — to relieve the suffering of our jobless citizens."

The boost proposed by Barron would affect only sales of more than \$1. On them, the tax rate would be raised from 2 to 3 per cent. And the increase would be in effect only 7½ months, rates dropping back after that to their present level.

"It absolutely will end next Aug. 31," Barron said.

Barron aides estimated that the tax hike would yield \$7.5 million and that it would make it possible to put 5,000 unemployed to work immediately.

"It will enable them to earn working wages until the full effects of our longer range plans can be realized," Barron said.

Leaders of the commanding Democratic majorities in the two houses promptly endorsed the Barron proposal and indicated bills to implement it would be introduced today.

Barron touched on only one other subject. And in so doing, he brusquely dismissed the idea of rushing through a salary raise for elected state officials in the opening days of the legislative session.

The money, said Barron, "could be better used at this time on more pressing problems involving the public welfare."

The proposal which had been under consideration — and which was faltering even before Barron came out against it — would have included a raise from \$17,500 to \$25,000 in the governor's annual salary.

To be effective for members of the executive branch during the four-year terms which begin next Monday, the raises would have had to be hurried into law before midnight Sunday.

The Legislature now has a chance to go to work on a small part of Barron's program a week ahead of his first appearance before it. He will spell out his program in a legislative speech a day or two after his inauguration next Monday.

Barron said his program would include specific proposals "to bring about definite and far-reaching improvements in our employment picture."

The Legislature convened at noon. After the formalities of organizing were finished, Senate and House were to meet in joint session about 1:15 p. m. to hear the annual "state of the state" address by outgoing Republican Gov. Cecil H. Underwood, who has only four more days in office.

## Reds Rebuff U.S. Bid On Control Unit

**Proposal To Revive Commission On Laos Rejected By Soviet**

WASHINGTON (AP)—The Soviet Union reportedly has rebuffed a U.S. suggestion that an international control commission for Laos be revived.

The Soviet rejection was said to have been given Tuesday to Secretary of State Christian A. Herter by Soviet Ambassador Mikhail Menshikov.

Menshikov held a 40-minute discussion on Laos with Herter at the State Department. The talk was at Menshikov's request.

Britain has led the move for reviving the commission, composed of India, Poland and Canada. The United States is agreeable provided the commission is acceptable to King Savang Vatthana and the royal Lao government of pro-Western Prince Boun Oum.

The Soviet Union claims the ousted government of Prince Souvanna Phouma, a neutralist who has fled Laos in the civil war raging in the Southeast Asia kingdom, is the legal government.

State Department press officer Lincoln White declined to say "yes" or "no" when asked if the discussion had been encouraging. He said Menshikov "came in to discuss the situation in Laos as he sees it from his standpoint."

Menshikov referred to the talks as "a quiet discussion." He said he gave Herter no notes or proposals and U.S. officials said they saw no particular encouragement in his call. Nor would U.S. officials picture the visit as a forerunner of negotiations on Laos.

The State Department confirmed reports that the United States has sent light aircraft—four helicopters and four two-seater, propeller-driven planes—to the Boun Oum government at its request.

## Judge Named For State Post On Car Safety

Judge Samuel M. Chertoff has been appointed to the Governor's Traffic Safety Committee on Courts, the first time an East Liverpool area resident has been chosen for the statewide organization.

Judge Chertoff was named to the committee by Municipal Judge James Ravella of Warren, the chairman.

The Warren judge explained in a letter to Judge Chertoff that the committee is "a state-level organization primarily interested in the court aspects of traffic safety and the courts' place in traffic problems."

Judge Chertoff said he has mailed a letter of acceptance to Judge Ravella.

In a trip to Columbus Friday, the judge said he expects to talk with members of the General Assembly about two proposed traffic law changes he has been advocating since taking the bench a year ago.

The laws would require regular safety inspection of all motor vehicles and periodic re-examination of all drivers to see that the mentally and physically unfit are denied permits.

Judge Chertoff said he will confer with the district's four representatives in the General Assembly, State Sens. Arthur Blake and Edmund Sargus and Reps. Clarence L. Wetzel and J. Warren Betts.

## Court Ends Segregation

# 2 Negro Students Attend Georgia U. Without Incident

ATHENS, Ga. (AP)—Two teen-age Negroes quietly sat down in classes with white students today after federal court rulings swept aside nearly two centuries of segregation at the University of Georgia.

Charlayne A. Hunter, 18, and Hamilton E. Holmes, 19, trudged along the oak and elm lined walkways to psychology and zoology classes respectively.

No crowds bothered them. There was just the usual flow of students making their way to the 9 a. m. classes in a score of buildings spread out over an area of more than two miles.

Some of the white boys and girls cast curious glances at the

two Negroes. Others paid them no attention. Some spoke to them. It was just another day starting at one of the nation's higher educational centers.

While all was quiet in the university town, there were rumblings in Atlanta of further displeasure with integration on any level.

House Speaker George L. Smith and State Auditor B. E. Thrasher Jr. expressed the opinion that the present appropriations act automatically cuts off funds to the university when integrated. But regardless of their views, normal operations proceeded.

The U.S. Supreme Court Tuesday refused Georgia's plea to further delay integration at the school.

## Castro's Due To Claim U.S. 'Scared Off'

**Press, Radio, TV Continue To Warn About 'Invasion'**

HAVANA (AP)—Fidel Castro soon may tell Cubans that the strength of his people's army has frightened off the American aggressors he claimed would invade Cuba before Jan. 20.

Government-controlled press, radio and television continued to trumpet warnings that invasion would come before President Eisenhower turns over the White House to John F. Kennedy.

Big headlines still denounced the U.S. Navy maneuvers in the Caribbean and the visit Monday of the supercarrier Franklin D. Roosevelt to the base on Guantanamo Bay.

But the rank-and-file defenders of the island seemed to be losing some of their enthusiasm for the 24-hour alert.

More and more regular army soldiers are appearing in Havana. Some were relieving militiamen, indicating the part of the thousands called up in the latest invasion scare were returning to factory and farm work.

## Annual Meeting Slated

# Chamber Board Elevates Alvin Babb To Presidency

Alvin T. Babb, vice president and secretary of YELP Service, Inc., on the River Rd., was elected president of the Chamber of Commerce at the annual reorganization of the Board of Trustees Tuesday afternoon.

Babb, formerly first vice president, succeeds T. Fred Edwards, commercial manager of the East Liverpool exchange of the Ohio Bell Telephone Co., who served in the presidency two years.

The Chamber board also elected:

William D. Ogilvie, first vice president; Charles D. Taylor, second vice president; Alwyn Purinton Jr., treasurer, and E. R. Chandler, secretary-manager. Taylor succeeds Robert E. Boyce. Purinton and Chandler were re-elected.

The election followed presentation of a slate by a nominating committee comprised of C. Walter Ashbaugh, chairman, Ralph W.

## Ball Selected As Secretary Of State Aide

**Kennedy Completes High Command Of State Department**

PALM BEACH, Fla. (AP)—President-elect John F. Kennedy today completed the State Department high command with the appointment of a close political associate of Adlai E. Stevenson as undersecretary of state for economic affairs.

Kennedy, back at the seaside home of his parents after a week of conferences in New York, Boston and Washington, gave the foreign policy job to George W. Ball, 51, a Democrat who has a background of service in government and now is a Washington attorney specializing in international law.

Ball long has been a chief political adviser to Stevenson, the Democratic presidential nominee in 1952 and 1956, recently picked by Kennedy to be ambassador to the United Nations.

Selection of Ball was announced by the president-elect as he turned to concentrated work on his Jan. 20 inaugural address. The \$20,000 a year job as undersecretary for economic affairs, Ball will be the No. 3 man in the State Department.

## U.S. Planes Received By Royal Army

**Delivery Authorized Under 1954 Geneva Independence Pact**

VIENTIANE, Laos (AP)—The Laotian government has threatened to take "appropriate steps" unless the Soviet government stops its airlift to pro-Communist rebels.

The warning to the Soviet Union, sent to the Soviet ambassador in London Monday, was made public shortly after the United States delivered the royal Laotian army its first armed planes.

Four propeller-driven observation planes, each armed with machine guns, were flown here Tuesday. Two other planes and a number of helicopters are also being turned over to Laos by the United States. The aircraft will be flown by Laotian pilots.

A Laotian spokesman said the planes were needed to check on the movements of the pro-Communist Pathet Lao in the north central Plaine des Jarres.

A U.S. spokesman said the delivery of defensive weapons was authorized under the 1954 Geneva agreement giving Laos independence. But protests are certain from the Communist nations supporting the Pathet Lao rebels and the forces of rebel Capt. Kong Le.

The note said the Soviet airlift to aid the rebels had not stopped despite a protest delivered Dec. 31, and that Soviet planes were continuing a daily delivery at air strips and by parachute "of substantial amounts of war material and other kinds of unauthorized military assistance."

The government charged 10 days ago that about 3,000 soldiers from Communist North Viet Nam invaded Laos, and U.S. intelligence sources later reported Soviet aircraft had brought in a substantial outside Communist force. Tuesday the government charged that Soviet as well as North Vietnamese troops were invading the country. Few Western sources here, however, have believed the reports of invading forces were well-founded.

## City Contracts For Bulldozer

Mayor Bert H. Goodballet and a Safety-Service Director Lee Copenhaver Tuesday awarded an \$18,617 contract to the Ohio Machinery Co. of Youngstown to furnish a bulldozer for use in covering trash at the city's landfill dump in Bloomfield.

The officials, who comprise the Board of Control, acted after studying 9 offers from 4 machinery firms that were submitted Dec. 30.

The Youngstown firm's offer covered a 93-horsepower diesel Caterpillar weighing 23,806 pounds. The price was set at \$21,467, less a \$2,850 trade-in on the wornout 1957 bulldozer formerly used at the dump.

Council provided \$20,000 for the purchase via a municipal bond issue.

"We feel this equipment is the best offered and that it will do the job for the city," the mayor commented.

The concern has promised to deliver the new equipment Thursday or Friday. The other bidders, two from Youngstown and another from Cleveland, submitted bids ranging upward to \$20,835.

## Businessmen's Group Names Elford To Post

John W. Elford, president of the Golden Star Dairy Co., has been appointed chairman of the East Liverpool chapter of the National Federation of Independent Business, an organization which keeps Congress and state legislatures advised of the feelings of small businessmen toward pending legislation.

Elford's appointment was announced by Frank Dellaria of Burgettstown, district manager of the federation.

Local business and professional men who are members of the federation are polled monthly on bills and issues that affect independent enterprise at the national and state levels. The ballots are returned to Elford, who forwards the tabulations to Rep. Wayne L. Hays, 18th District congressman, and State Sens. Arthur Blake and Edmund Sargus of the 20th-22nd District.

## Spring Promotion Plan Proposed By Merchants' Group

The promotion committee of the East Liverpool Merchants Association will arrange a special event for late April or early May, it was decided at a meeting Tuesday in the Chamber of Commerce office.

Charles Averill, chairman of the special committee, submitted a final report yesterday on the "Auto Mall" show which his group arranged in November. E. 5th St. was closed to traffic for 3 days to permit an exhibit of new car models.

His report led to discussion of a comparable event in the spring. Edwin Maloney, chairman, reported for the downtown improvement committee, explaining its work to secure improved street lighting and additional off-street parking spaces.

There was a general discussion of the Christmas program. H. James Allison, president of the Junior Chamber of Commerce, attended to discuss his organization's part in the holiday program and make recommendations for the 1961 observance.

The next meeting will be Tuesday, Feb. 7.

## Pennsy Drivers Await Licenses

Midland and other Pennsylvania motorists must have new operator's licenses and inspection stickers Feb. 1. Old ones expire Jan. 31.

New operator licenses are secured by mail, cost \$4 and will be good for 2 years, expiring Jan. 31, 1963, the Beaver County Motor Club at Rochester said. Old licenses were good for one year and cost \$2.

Applications for the licenses are being mailed by the Department of Revenue, Bureau of Vehicles of Harrisburg. The applications for renewal are returned with a check or money order and the licenses are mailed by the department.

The present inspection sticker campaign began Nov. 1 and expires Jan. 31. The next campaign begins May 1 and expires July 31, the club said. Vehicles are inspected twice a year at inspection stations for about \$2 an inspection.

The inspection campaigns for commercial vehicles are Feb. 1, expiring March 3, and Aug. 1, expiring Oct. 31.

License plate tags expire March 31 for passenger and suburban vehicles or station wagons. Commercial vehicle tags expire June 31. Motorists are on the third year of a plate that is bought every five years.

Tags are bought each year by mail from Harrisburg. Passenger tags cost \$10, suburban or station wagon, \$12, and commercial vehicles according to weight.

## Of Whom Much Is Expected

We could have wished for more opportunities between the end of the campaign and the inauguration to hear John F. Kennedy talk about his dreams.

His 10-minute speech to the Massachusetts Legislature had a fervor and poignancy rare in the statements of public figures. When he spoke of the judgment to be made on Americans by the "high court of history," he showed an awareness of his responsibility as executive leader that is a credit to his sense of humility.

During the campaign, we sometimes suspected that Mr. Kennedy was doing what every presidential candidate is forced to do. Both he and Vice President Nixon seemed to be saying what they thought their audiences wanted to hear and what their advisers told them would be good for votes. Mr. Kennedy's "new frontiers," we felt were overdone, just as we sometimes felt that Mr. Nixon was overdoing his personal acquaintanceship with Premier Khrushchev and the other officials of the Soviet Union whom he had met personally and therefore could not be fooled by.

SINCE LAST NOV. 8, Mr. Kennedy has been so busy doing what needed to be done in the way of putting together an administrative team that the transition from "new frontiers" to old-fashioned political organization was too abrupt for the sake of the presidential image he must create.

In this image will be incorporated the ideals of his countrymen. Every president at the outset of his administration carries the special responsibility of a fresh mandate. Everybody expects the best at first, and because it was Mr. Kennedy's campaign tactic to promise that his best would be better than Dwight Eisenhower's best, the Kennedy best will need to be very good indeed.

History will judge us, he told the Massachusetts Legislature, by our courage, judgment, integrity and dedication.

## Keep Them All Playing

The president of the Ohio Board of Education is the latest to level an attack on extra-curricular activities in present-day school systems. Bands and athletics received the brunt of his criticism.

While a case can be made for any such charge of over-emphasis, it is our feeling that an even stronger case can be made in the other direction.

What many of those who denounce such programs seem to forget is that participation is voluntary, not compulsory. Those who take part, in most cases, do so because they want to and because they have an intense interest in and love of the extra-curricular activity they choose.

What also too often is forgotten is that both bands and athletics afford a stepping-stone to advance education. Also, that the channeling of interests in the direction of bands and athletics is far better than allowing interests

These will be the qualities by which history will judge each of us, as well as all of us—John Kennedy as an individual as well as the millions of his countrymen. It is reassuring to know that he is aware of this and challenging to all of us to realize that he will expect as much of us as we expect of him.

The American people have not merely elected a new chief executive to organize a new administration. They have elected to give themselves a new sense of direction and to test their ability to follow new and more challenging leadership.

THERE HAVE BEEN times in the nation's history when a change of administration marked a lessening of responsibility on the part of the people. This is not one of them.

President-elect Kennedy, we believe, is completely dedicated to the philosophy of dynamic challenge. We believe he has put together a Cabinet composed of men who believe the same way.

Their leader believes the most is expected of those who have the most. His personal sense of noblesse oblige is extended to all his countrymen. Those who have the means and the ability to serve must serve to the limit of their ability.

We have no doubt the new President will repeat this theme in his inaugural address. It is good to know that he has the gift to put into words the thoughts that can stir hearts and light the way for a new direction of national leadership.

This is the test of every new administration. It is the test that John F. Kennedy must not fail.

He has provided reassurance that the high-mindedness of his campaign oratory will be carried into his presidential administration; that he has not become wholly absorbed in filling appointive positions and trying to keep peace in the Democratic family.

to drift in the direction of less desirable pursuits.

And in properly-conducted scholastic and collegiate programs those who let their grades slip suffer the consequences — dismissal from band or team. Therefore, more often than not such activities serve as a stimulant for better academic marks.

In addition to the material benefits, the intangible ones are many.

It would be difficult to compile an accurate list of students from East Liverpool and other district high schools who have had the opportunity to go to college because of music or athletics. But you can be sure it would be a long one.

Let's retain the bands and athletic teams so long as they maintain their proper relationship to the over-all educational program. In East Liverpool and the other schools with which we are acquainted, it is our opinion that they are doing just that.

## Not One Of The Prettier Sights

The United States Senate is not one of the prettier sights of government when it is passing judgment on presidential appointments. But it is one of government's reassuring sights.

The purpose of the judgment-passing is less to thwart presidential will than to remind the chief executive that everything he does is under critical scrutiny. John F. Kennedy, who has been a senator himself, knows how it works.

It is likely his appointments will be confirmed. It is likely they will be confirmed without any fuss or bother. But when the question-and-answer record has been made, many a sharp blade will have slid along the ribs of many an appointee — close enough to tickle but not pressed hard enough to draw blood.

There might be one inadvertent answer made that could be twisted as former Defense Secretary Wilson's remark about what was good for General Motors being good for the country was twisted. There might be a mon-

entary loss of poise, a flash of temper, an ill-advised remark that would haunt the appointee.

Contrary to a prevailing impression that a political party which wins an election takes over Washington, the truth is in the opposite direction.

The Kennedy administration will bring many new people to Washington, to replace people who were brought to Washington by the Eisenhower administration and now will be going home. But when they arrive, they will learn what generations of public officials have learned — that Washington is both a city and a system and is dominated by people who know its ropes.

There is a frantic pulling and hauling for influence and power, and one of the tense stages of this power struggle is the passing of senatorial judgment on presidential appointees. Few have been rejected, but many have been given such a traumatic experience they never were the same again.

PRESIDENT-ELECT KENNEDY doesn't mind being referred to as JFK, but doesn't like being called Jack in headlines or news stories. President Eisenhower says he will always welcome being called "Ike." But the difference is easily understood. The Eisenhower personality suggested warmth and intimacy. Largely through his leadership in World War II he was idolized by many. He has a homespun quality. Mr. Kennedy is colorful, likable and able but people who would hail the general with "Hi, Ike!" wouldn't dream of greeting the new President with "Hello, Jack."

Castro has barred American tourists from Cuba without a visa. What American tourists?

## The Once Over

The whole scare about "imminent invasion" of Cuba may have been caused by language and violent gestures of Ike when trying to get out of a sand trap. It can sound and look like aggression.

After four or five vain whacks in trap Ike can cry, "This is the limit." "No terms but unconditional surrender," etc.

Whatever the cause, Cuba has gone nuts. And Castro, throwing up defenses everywhere, hints it's Eisenhower he sees from dawn to dawn on the beaches, in the skies and whipping through the waters. He fancies Ike attacking Cuba with bombs, nibbles, bazookas, divots, germs and old scorecards.

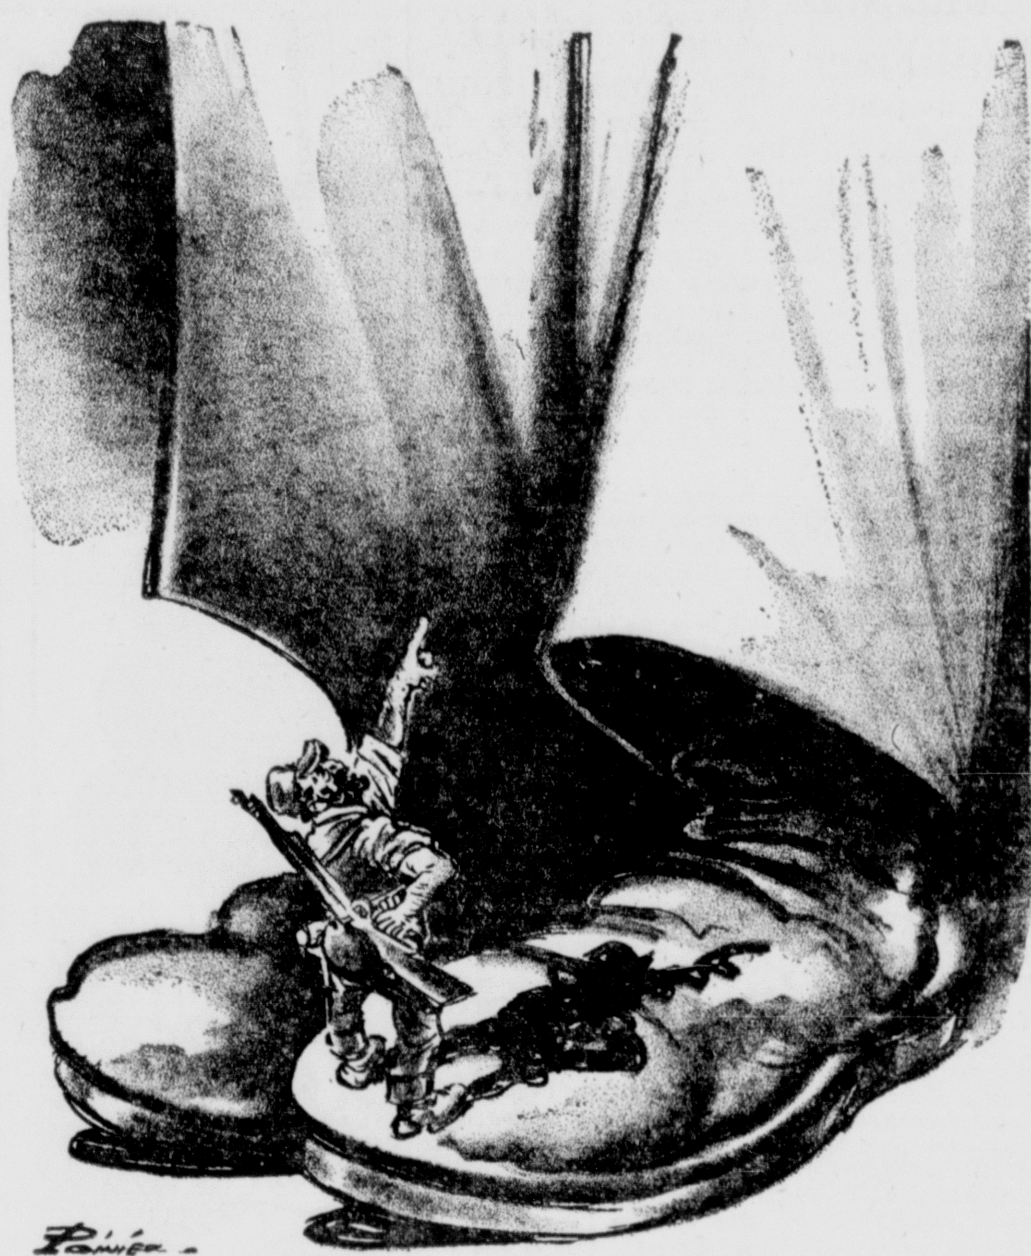

Even though Fidel realizes Kennedy plays a little golf, he believes he is a touch-football man and more peaceful.

Our own war expert, Thaddeus Pooch, says the Cuban crisis is wholly a result of galloping hysteria, produced by the sight of Cuban females heavily armed dashing about Cuban streets, fingers on triggers. "When the gals bust into the act wholesale with bazookas it makes any nation jittery," he says.

"I think it was too much even for Castro's nerves, and I am sure nothing else explains the Cuban minister's rush to the United Nations, shaking with hysteria and demanding world help fast."

Thaddeus was right. Armed men can be taken with a certain calm. But you can't equip wives, mothers, sisters and children with personal arsenals and not scare the hide off everybody. (Get those dolls dressed to kill off the Cubans streets and things will return to normal.)

## Delusions Of Grandeur

## 'Men Of Steel' Eye Labor Peace

By Victor Riesel

It could be that in a year or two we'll see the end of those mass strikes which wipe out smoke and salaries in hundreds of communities across our land. If industrial peace breaks out all over, thanks will be due to 10 "men of steel" who met in Suite 716 in Washington's Sheraton Carlton on the morning of Jan. 5.

They are the men who speak for those who make steel with their hands and brains—industrialists and workers alike.

Five spoke for the union and five were company executives. Together they made up the Joint Human Relations Research Committee.

Only half of what was discussed inside that suite has reached the public prints.

What has not yet been reported is the off-the-record talk of a national labor-management summit peace parley at which all of labor and all of industry for all of the United States would be represented.

It was United Steelworkers president Dave McDonald, in whose suite they met, who raised the summit conference issue—through the session had been called to talk about stoking up the fires of prosperity in a slowing industry.

McDONALD looked at his committee co-chairman, Conrad Cooper, U.S. Steel vice president and asked how the steel people felt about such a national conference.

The union leader, in effect, made it plain that he was not just talking about a steel industry summit gathering. He was aware that "steel" did not speak for all of American business. But McDonald had been in all this since the beginning, when his hair was not quite so silvery and when his chief had been the imperturbable John Lewis. The beginning had been the late '30s. Steel labor then had sought a contract without a costly strike.

Mr. Lewis went to Franklin D. Roosevelt. FDR asked the head of U.S. Steel, to sign a pact. The company agreed. Other corporations followed. Now, the union born of that political-industrial wedlock wanted "steel" to agree again. Steel's influence is strong. It could intercede with other industries.

McDonald did not get down to the specifics but the plan he has privately discussed in the past is something such as this: President-elect Kennedy would ask Secretary of Commerce Luther Hodges and Secretary of Labor Arthur Goldberg to call a Labor-Management Assembly. It would operate much like the U.N. General Assembly—although in private session.

ON THE INDUSTRY SIDE would be the Commerce Department's Business Advisory Council, in addition to spokesmen for small businessmen. For labor there would be the AFL-CIO General Board, made up of one representative from each union.

Business would be expected to send corporation presidents and chairmen of boards. Unions would send their presidents. They would meet for two or three weeks—several times a year—to work out permanent industrial peace.

The steel executives listened to McDonald. They too wanted peace. But their problem, as well as the union's, is survival. They would

go back and talk to their colleagues. But the union had to realize that there could be no employment if there weren't any orders. That's where the talk of tax reform began. I'd like to explain their problem for the layman.

There is, for example, a big U.S. Steel Co. mill which has an outmoded section. Originally the cost was \$5 million. It had to be replaced.

THE PRICE of the new section now is \$40 million. Under our tax system—depreciation, the accountants call it—the treasury permits tax deductions for machinery

as it gets older and less valuable.

The theory is you can put \$5 million away for another machine. But inflation has set in. It now costs eight times as much. So, many industries don't replace their equipment and machine tools. If they don't buy new ones, there are no orders for steel. No orders, no jobs.

So the industry urged labor: Join us in the fight to have the government give us tax credit which takes inflation into account.

Both sides understood each other. Things are tight now.

Lots of luxuries must be sacrificed—including batting each other around.

## Recommendations Pour In

By James Marlow

WASHINGTON

It's raining recommendations. President-elect John F. Kennedy, during the campaign and after his election, wanted ideas on how to do better for the government and the people. He wanted them before he was sworn in Jan. 20.

So he appointed study groups which went under various names—task force, committee, study panel—to look into the problems assigned them and come up with proposals.

They're coming in now: recommendations which range from reorganizing the Defense Department to sending a peace corps of young Americans to newly independent Asian and African countries as technicians.

This is a big advantage for Kennedy. It gives him a head start in putting together programs he can submit to Congress in a hurry.

President Eisenhower was prodigious in creating commissions but he waited until he moved into the White House. The long delay in making some of the studies simply delayed action on the problems. The last Eisenhower commission—on national goals—reported Dec. 1.

Right now in Washington 2,500 people from all over the country are taking part in a conference on the problems of aging. Congress wanted this one and Eisenhower had to call it.

When there's a conference this size on any problem there should be no surprise if the result is hush.

The unknown quantity about the recommendations being given Kennedy is what he will do with them when he gets into the White House.

For instance: A committee headed by Sen. Stuart Symington, D-Mo., was the first group to report and called for a reorganization of the Defense Department.

Symington, under President Truman, had been secretary of the air force and knows the inner workings of the Pentagon. But Kennedy was careful not to give the Symington report a hearty endorsement.

He hadn't yet selected his secretary of defense, so he didn't know how he'd feel about it. He finally made Robert S. McNamara secretary, and McNamara so far has exhibited no enthusiasm for Symington's ideas.

On the other hand Kennedy appointed a one-man committee, James M. Landis, a former Harvard Law School dean, to look into the government's regulatory agencies and make suggestions on improving them.

Those agencies—such as the Interstate Commerce Commission, the Federal Power Commission, the Federal Communications Commission—have controls in most areas of American life.

as it gets older and less valuable.

The theory is you can put \$5 million away for another machine. But inflation has set in. It now costs eight times as much. So, many industries don't replace their equipment and machine tools. If they don't buy new ones, there are no orders for steel. No orders, no jobs.

So the industry urged labor: Join us in the fight to have the government give us tax credit which takes inflation into account.

Both sides understood each other. Things are tight now.

Lots of luxuries must be sacrificed—including batting each other around.

## The Attorney General

By David Lawrence

### Politics Doesn't Belong In Justice Department

Of all the Cabinet appointments, the one that the Senate will soon debate and examine most carefully before giving its "advice and consent" will be that of Robert F. Kennedy, the nominee for attorney general.

Aged 35 and with no record in courtroom practice of law, the younger Kennedy receives the David Lawrence appointment partly as a political reward and partly as the trusted lieutenant of his brother, the President-elect.

What kind of attorney general will he turn out to be? For one thing, he will make a much better record if he gives up politics than if he continues to participate in political activity.

The Department of Justice is basically a non-political department of the government. Though occasionally there have been criticisms alleging political bias when certain prosecutions were carried on, the department during most administrations has managed to steer clear of politics.

Does the public realize what an attorney general has to do and how important it is for the American people, especially the legal profession, to have confidence in the Department of Justice? Here are several points to be borne in mind.

1. As top man in the enforcement of federal laws, the attorney general is the chief legal adviser to the president and a member of his Cabinet, in which he ranks fourth.

2. The attorney general furnishes advice and opinion on legal questions to the president and also to the other Cabinet officers when so requested.

3. The attorney general construes the laws under which the executive departments act and furnishes legal counsel in all federal cases.

4. The attorney general directs all suits before the Supreme Court of the United States in which the federal government is concerned. He may appear before the Supreme Court to argue a case of great importance, though this usually is left to the solicitor general.

5. The attorney general and his staff review all executive orders and draft legislation desired by the president.

6. The attorney general appears before congressional committees to testify on proposed legislation concerned with law enforcement and the judiciary.

7. The attorney general selects for recommendation to the president the nominees for federal judgeships and also the 91 U.S. attorneys and 600 assistant attorneys throughout the country who are the chief prosecuting officers for the federal government in each

judicial district. Congress is being asked by the chairman of the House Judiciary Committee to create 63 new federal judgeships.

8. The attorney general is responsible for the enforcement of all federal laws involving crime, including those relating to kidnapping, bribery, counterfeiting, narcotics, extortion, perjury and subversive activities and espionage.

9. The attorney general enforces the antitrust laws, conducting both civil and criminal suits.

10. The attorney general has complete control of the federal bureau of investigation and may order or discontinue its investigations.

11. The attorney general is responsible for enforcement of the internal revenue laws in all manner of tax cases.

12. The attorney general directs all civil rights cases involving the federal government, including, of course, all school desegregation orders of the courts.

13. The attorney general must enforce the labor - racketeering laws, including cases that involve misuse of union funds or extortion of money from employers.

ALL IN ALL, it's a formidable list. Mr. Kennedy could, to be sure, change the nature of the job of the attorney general. He could make it more of a general managership of a big department and depend on assistants with more experience than he has had in the practice of law to do the legal work of the department.

Young Kennedy is a tireless worker and is reported to be a skillful administrator. He could make a creditable record as the head of the Department of Justice, despite his lack of experience as a trial lawyer but will he be judged on the basis of his work in his own department, or will attention center on what he does in the field of politics in behalf of his brother's administration?

There are countless things a Cabinet officer can do right along to advance the political fortunes of his chief, especially if the latter is likely to be up for reelection four years later. So far as the American people are concerned, it seems clear that they do not wish to see politics influencing the judgment of an attorney general any more than they would care to see it affecting the decisions of the secretary of state or the secretary of defense.

If Robert Kennedy abandons all political activities and concentrates on running the Department of Justice impartially and if he efficiently administers this big department—which has about 31,000 employees—he will be regarded as a good attorney general by the public but it probably always will be hard to convince the members of the American Bar Association that a president need not appoint a top-notch lawyer to be the attorney general of the United States.

## Purely Personal

By Truman Twill

This has been, all things considered, the nicest winter that I can imagine. It has met what once was the highest requirement for a good winter among the younger set in the little town where I grew up—enough snow on the ground to cause all farmers to convert their wagons to bobsleds, which we rode in and out of town, with the farmers' consent.

People who think Castro acts as if he had gone off his rocker should brush up on the irrationality of Adolf Hitler in William L. Shirer's excellent review of that madman's misuse of public power. In the war that resulted, millions lost their lives outright and millions of others would have been better off dead.

Nothing is funnier than another person's account of a comedian who has come up with a funny skit on television, unless it's the recital of a motion picture story line that gets twisted up in the telling.

Of all the things I have no intention of celebrating, the centennial of the Civil War is first and foremost. It would be as fitting to think of celebrating the massacre of Custer's army — a little more so, in view of the fact the Civil War isn't over.

My sympathy goes to harassed cartoonists unable to bring off a caricature of John F. Kennedy. Their drawings either make him look like a hirsute schoolboy or a haired-over plug-ugly, and the fact is he resembles neither.

Those outside gas lamps that are popular in suburban real estate developments are reminiscent of a time when every house had a gas light that burned in the hall, to light the passage of one and all and to plant the seed of a doubt in the minds of would-be house-breakers.

That World War II helmet the lady was knitting for me before Christmas; remember it: The thing I thought that looked like a wool football? It was a helmet, all right, and the most comfortable thing for cold winds I've ever owned. Except for a slit for the eyes, it covers the entire face — all those sensitive spots where sinus aches occur.

I find it necessary to limit my worrying to three things at a time. When I am worrying about the state of the furnace and whether

the car will start, I have room only for Laos, Castro, Berlin, Japan and all the others must wait their turn. If the car starts, I can take on Castro or one of the others — and so it goes.

Everybody agrees that the United States needs tax reform, but what they really mean is that someone else should pay all the taxes they now are paying — and that isn't what tax reformers have in mind.

I find it interesting to hear people talk about things they like to eat and why they think they like them, particularly if they share my theory that instinct prompts us to seek out certain foods at certain times. In the early spring, I seek out leeks and green onions.

One of the handiest gadgets I've run across is a king-size paper holder with a built-in magnet so it can be slapped up against a metal surface and will stay there until needed.

If I were among the medically needy aged I would begin to suspect that some of the people shooting off their yaps about me were more interested in grinding their axes than in helping oldsters coast down hill at a price they can afford to pay, once their spend-now-pay-later goose has been cooked.

### School Vandal Case Checked

NEW CUMBERLAND — Windows were smashed, desks ransacked and contents of the drawers strewn through the halls and rooms of the elementary school in a rash of vandalism sometime Tuesday night.

Classes were dismissed this morning for the first five grades in the elementary school while officials cleaned up broken glass, paper and personal belongings of teachers.

The vandals, apparently youngsters, visited 14 rooms in the grade school, leaving in their wake about \$1,000 damages.

The intruders gained entrance by breaking a pane of glass in a door of the northwest section, reaching through and unlocking the latch.

The vandalism occurred in nine rooms on the first floor and five others on the second floor. Sixth and seventh graders attended regular classes today. The first five grades were to return to class this afternoon.

The elementary section is located on the first two floors of New Cumberland High School, adjacent to the Courthouse.

Hancock County sheriff's deputies discovered the vandalism at 4:10 a. m. today in making routine checks of schools in the county.

Police Chief Jacob Baxter of New Cumberland is investigating.

### 2 Complaints Added To Grand Jury List

LISBON — Two more criminal cases have been added to the January Grand Jury's study scheduled for Friday, Columbiana County Prosecutor G. William Brokaw announced today.

An armed robbery and a non-support case will be presented Friday, he said. Three cases with 19 witnesses are scheduled for Thursday.

The panel is to be caught up with its work today after ending up Tuesday afternoon with one case behind, Brokaw said.

The Rev. James Gardner, pastor of the Orchard Grove church and association president, presided.

During the program with the Rev. James Hunton of the First Church of the Nazarene in charge, a general discussion was held on the government of the various churches, including how ministers are called and released from their charges, the means churches use to meet salaries and the formation of pension plans.

Pastor Lyle Euler of the Seventh-day Adventist Church conducted devotions.

The next meeting is Feb. 6 at the First Methodist Church.

## Obesity, Birth Marks Receive Comment By Medical Experts

By The Associated Press  
Medical experts comment on obesity, strawberry birth marks, and "substitute nerves." For 1961, the American Heart Association urges everyone to re-

pointing to higher mortality rates among men, and also among women to a lesser extent, who are carrying around excess pounds. Get good medical advice about what is a proper diet for you, it adds.  
Strawberry birthmarks are fairly common, but most of them disappear with time, or become greatly improved, without any

treatment, British skin specialists report.  
Among 169 such birthmarks among 140 children, only 21 marks remained by the time the youngsters were eight years old.  
From the Soviet Union comes word of experiments in which metal electrodes are being substituted for severed lengths of nerves in dogs' legs.

Dogs in the experiments run and jump quite normally, says a Soviet writer describing research of Prof. Boris Ognev. Prof. Ognev has performed 36 operations on 30 dogs so far, removing up to two-inch lengths of the sciatic nerve, he said. Further details of how the "substitute" nerve actually works were not supplied in a Tass broadcast quoting from Nedelya, the weekly supplement of the Soviet newspaper Izvestia.

Refreshments were served by the kitchen committee including Walter Galloway, Lionel Twist and John Fone.

The post will meet again Monday night.

## Prosecutor Rules On Jobs

(Continued from Page One)

"The Civil Service laws of Ohio are contained in Sections 143.01 to 143.08, inclusive, of the Ohio Revised Code. Section 143.01 contains definitions. Section (A) defines Civil Service as including all offices and positions of trust or employment in the service of the state and the counties, etc. Section (B) defines 'state service' as including all such offices and positions in the service of the state, or of the counties thereof. Paragraph (C) defines 'classified service' as the competitive classified civil service of the state, the several counties, etc."

"Section 143.08 of the Revised Code breaks the Civil Service law down into classified and unclassified service. Generally speaking, if a person is in what is called the unclassified service, he is exempt from all Civil Service examinations and is not covered or protected by the so-called Civil Service Law."

"The only employee among those mentioned above, who is specifically exempted from the classified service in Section 143.08, is the clerk of the board. However, the assistant to the clerk of the board is also in the unclassified service unless otherwise designated by the board."

"Although the positions of employment for the board are not, except as above noted, exempted from the classified service, the attorneys general have held in a number of opinions that positions in respect to which it is impracticable to determine the merits and fitness of applicants by competitive examination are not in the classified service even though they do not come within any of the groups which are expressly included by the statute in the unclassified service."

"Since it would be impracticable to determine the merits and fitness of the employees of the county commissioners, mentioned above, they, therefore, do not come within the classified civil service and are simply employees in the unclassified service."

"The fundamental purpose of the Civil Service laws is to establish a merit system whereby selections for appointments to certain offices may be made upon the basis of fitness. Fitness is to be determined by competitive examinations, as provided by both the Civil Service laws and the constitutional amendment, Article 15, Section 10, which established the service."

"It is my understanding that none of the above mentioned employees or appointees, has ever been examined by a Civil Service Board. The Supreme Court of Ohio has held that, 'a person who has never taken a Civil Service examination, either competitive or non-competitive, has no standing as a Civil Service employee and is not entitled to the benefit and protection of the Civil Service law'."

"This decision was handed down by the Supreme court Feb. 25, 1953. This decision has never been overruled by our State Supreme Court."

"Therefore, in specific answer to your question as to the status of the above-mentioned appointees or employees of the board, it is my opinion that none of said employees or appointees are in the classified Civil Service."

"It is further my opinion that all of the said employees are not entitled to the benefits and protection of the Civil Service law. It is further my opinion that all of said employees or appointees serve at the pleasure of your Board of County Commissioners and their services may be terminated at any time."

been overruled by our State Supreme Court.

"Therefore, in specific answer to your question as to the status of the above-mentioned appointees or employees of the board, it is my opinion that none of said employees or appointees are in the classified Civil Service."

"It is further my opinion that all of the said employees are not entitled to the benefits and protection of the Civil Service law. It is further my opinion that all of said employees or appointees serve at the pleasure of your Board of County Commissioners and their services may be terminated at any time."

## School Revenues Seen Improving

CHARLESTON — West Virginia's 55 counties are doing a progressively better job of collecting property tax money for school purposes, largely through continued improvements in assessment procedures.

An annual Tax Department survey showed today that they have increased by 2 per cent the amount the office has estimated they could collect from tax sources excluding utilities.

THE SURVEY showed the counties had an anticipated tax income of \$17,691,000 on the basis of 1960 assessments, or a statewide average of 52.59 per cent of a potential \$33,719,460 tax income.

A year ago, the percentage was 50.53 of a potential \$33,569,910, with an anticipated local tax income for schools of \$16,964,488. The survey does not reflect income from bond issues or special levies.

The study also showed that 15 counties — as against 13 a year earlier and 41 back in 1956 — still came up short of local share amounts for which they are held

under the formula for distribution of state school aid.

A COUNTY is held liable for 47½ per cent of its non-utility tax potential, computed by applying tax rates to the annual survey's valuations, and 97½ per cent of public utility valuations set annually by the Board of Public Works.

Gilmer and Greenbrier counties were among short of local share amounts, but data in the hands of the Board of School Finance indicated a slightly better revenue position.

Under a 1960 legislative act, county courts are required to turn over to school boards sufficient portions of the courts' levy rates to make up the amounts counties might be short on local school revenue shares.

IN THE present fiscal year which began last July 1, six county courts turned over to school boards levy rates which will bring in \$273,522. The counties included Hancock.

In seven other counties, adjustments of varying other types were made. In some, school boards elected not to pass for a transfer of levy rates.

The new appraisal survey indicated that rate transfers could amount to as much as \$448,205 next fiscal year in several counties, including Hancock.

The figure, of course, is subject to change on the basis of final assessments which will be passed along later by the counties to the Board of School Finance.

A new Tax Department valuation study showed a statewide \$73,027,006 increase in 160 assessments of non-utility property for tax purposes.

Total assessments climbed to \$2,091,124,769, with all but 13 counties showing increases. Assessments of utility properties set by the State Board of Public Works were up \$5,536,700 to \$857,911,100.

THE NON-utility assessment breakdown ranged from \$468,058,600 in Kanawha County, which was up \$22,620,425 over 1959, to \$5,411,240 in little Wirt. Wirt's assessments also were up by \$30,860.

Here are some of the other county figures: Cabell, \$312,094,430, down \$236,660; Ohio, \$194,370,950, up \$13,231,775; Harrison, \$144,510,910, up \$2,998,860; Wood, \$132,576,370, up \$6,104,410; Marion \$116,392,443, up \$1,

559,527; Hancock, \$100,257,953, up \$875,080.

The Tax Department survey, which was on legislators' desks as they began a new 60-day session today, also showed that 18 counties still had over-all assessments below 50 per cent of appraised values set by the study.

UNTIL THE statewide non-utility property appraisal program is completed, the annual Tax Department property valuation study will remain as the basis for computation of state school aid allocations.

In that light, here are other county figures set forth in the new survey — relative to percentages of tax potential for schools which now are being realized from non-utility property assessments:

Brooke, 40.70; Fayette, 50.63; Greenbrier, 46.97; Hancock, 44.11.

### Midland Post Office Gains In Cancellations

Cancellations for December at the Midland Post Office ran about 12,000 ahead of December 1959, Postmaster Angelo Cellini said.

## President Takes GOP Off 'Spot'; Will Be Speaker

WASHINGTON (AP) — President Eisenhower has taken congressional Republicans off a political spot by agreeing to be their principal—and only—speaker at a June party fund-raising dinner.

Eisenhower's scheduled appearance at an affair honoring all Republican members of Congress probably will mark his first political task after he leaves the White House next week.

When they shifted their dinner date from May to June to suit the retiring president's convenience and got his agreement to speak, congressional sponsors breathed a sigh of relief.

They had a star attraction without having to choose between any of the potential 1964 contenders for the party's presidential nomination.

Although they are welcome to attend if they want to, sponsors said they are not issuing special invitations to retiring Vice President Richard M. Nixon and New York's Gov. Nelson A. Rockefeller. Sen. Barry Goldwater of Arizona, a third possible contender, is one of the sponsors of the meeting as chairman of the Republican senatorial campaign committee.

In DiSalle's Address To Assembly

# State-Local Government Tie Cited

By DUANE CROFT

Review Staff Correspondent

COLUMBUS—Gov. Michael V. DiSalle laid heavy emphasis

Tuesday on the state's responsibility

to local governments when he

delivered the biennial "state of the

state" message to a joint session

of the 104th General Assembly.

Although the review-and-request

document was designed primarily

to toughen the surface in the most

general terms, nearly 3 full pages

out of 18 were devoted to 3 aspects

of the state-local government relationship:

1. Financial assistance.

2. Metropolitan growth.

3. Law enforcement.

Citing the increased pressure

from local governments on the

state for financial help despite a 40

per cent return of state-collected

revenues, Gov. DiSalle declared:

"The state cannot continue to be

a major tax collector, returning

funds on the basis of formulas

which are outmoded and in some

cases politically inspired. We must

open new avenues so that home

rule can become fact rather than

fiction.

"Give local governments the tools

to raise their own finances and they

will be in a better position to

measure the services they can and

will give."

At a press conference Tuesday

morning, the governor said he

would make no specific recom-

mendations on how to accomplish

this, adding that the constitution

makes this the legislature's pre-

rogative.

He said only that one approach

might be to modify the doctrine

of pre-emption, even including per-

mission for local governments to

levy limited sales taxes. He said

this approach is used in some

other states.

Cites Metropolitan Growth

Gov. DiSalle urged the legis-

lators "to place the problem of met-

ropolitan growth high on the

agenda for this session.

"The increase of people and in-

dustry that has occurred and will

continue to occur in Ohio creates

increasingly difficult problems for

local governments," he said.

"They are faced with increasing

costs stemming from urban renew-

al, water supply, mass transportation,

recreation, health, welfare,

education and metropolitan plan-

ning.

"These problems are not purely

increases in jobless benefits with-

out enacting further laws. In 1958,

the legislature extended jobless

benefits by 13 weeks during a

special session but refused to take

such action in 1960.

He suggested, however, that in-

stead of writing a formula into

the law to make such extensions

automatic that "discretion should

be left in the hands of certain

trusted officials" to decide when

to extend benefits.

He suggested this power be put

in the hands of the Advisory Coun-

cil of the Bureau of Unemploy-

ment Compensation which is com-

posed of representatives of the

public, labor, and management.

Covers Entire Field

DiSalle covered the entire field

of state government in his mes-

sage.

He called for an extension of

the fair employment practices law

enacted by the last legislature to

provide "equal accommodations to

all persons."

He called for a "complete re-

vision of laws dealing with ad-

missions" to state hospitals. He

said details would be spelled out

in his budget message.

DiSalle urged the legislature to

give attention to the juvenile crime

problem. He said the Boys Indus-

trial School at Lancaster cannot

handle all of the cases. He pro-

posed regional schools for the

"neglected and problem child."

Prison Rehabilitation

He called for an end to the

Ohio Penitentiary in Columbus and

the establishment of two new

prisons, including the prison now

being planned at Grafton in Lor-

rain County.

Plans have been announced to

sell the old and overcrowded peni-

tentiary in Columbus.

DiSalle put emphasis on prisoner

rehabilitation, saying the state

could no longer "continue to ac-

cept the responsibility for the cus-

tody of prisoners and return them

to society unimproved."

The state's welfare programs

"generally have been improved,"

DiSalle said. He did not propose

any major revisions in this pro-

gram which deals with old age

pensions, blind persons, dependent

children, and disabled persons.

DiSalle said the Highway Patrol

is at its authorized strength "for

the first time in history." But he

said, the combination of better

highways and the need for better

traffic law enforcement made it

urgent to increase the patrol by 150

men in each of the next two years

to a strength of 1,000.

The governor said the Depart-

ment of Natural Resources was

preparing a master plan for buy-

ing land for parks and recreation-

al facilities. He said, however,

such a plan without funds would

be of little use. He promised to

outline the costs in his budget

message next week.

Water Law Revision

The Ohio Water Commission "is

ready to make recommendations

for extensive revision" of the laws

dealing with water, the governor

said.

"We hope you will accept the

recommendations seriously and be-

gin the long process necessary to

establish Ohio's water resources

under a modern system of law

which will protect and preserve it

for posterity," DiSalle said.

DiSalle also called for a mod-

ernization of public health facili-

ties.

The governor urged the legisla-

ture to put the problem of Metro-

politan area growth "high on the

agenda for this 104th General As-

sembly."

Criminal Conspiracy Law

The governor repeated his de-

mand for a criminal conspiracy

law which was killed in the leg-

islature two years ago. He said the

state "must be of more assistance

to local governments in the area

of law enforcement."

DiSalle said such a law would

make it possible to prosecute peo-

ple who conspire to commit

crimes, which he felt would help

catch the leaders. He said "these

notorious individuals now live like

feudal barons, believing them-

selves above the law."

Such a law, DiSalle said, would

help local authorities smash

gambling, prostitution and other

vices.

Revise Utility Rate Basis

The governor again called for a

revision of the law under which

utility rates are set. Bills calling

for this have been killed regular-

ly in past legislatures but DiSalle

said "We will continue to try to

demonstrate that the present law

does not protect the Ohio con-

sumer."

DiSalle took up what he consid-

ered the state's "most important

problem" near the end of his mes-

sage.

This problem, he said, is "the

need for increases in both the

quantity and quality of education."

He said he would deal in detail

with education in a special mes-

sage to be sent to the legislature

later.

Denies Being Wasteful

DiSalle said there had been crit-

icism of his administration as

wasteful but he said the increases

in school enrollment meant that

"only an ability to multiply and

add will give you what (the in-

creased enrollment) will mean in

additional cost."

He said present education cost

now totals about half the state's

spending from its general revenue

fund—something around \$500 mil-

lion.

He said bills would be submit-

ted dealing with the entire educa-

tional field, from elementary

schools through colleges.

He said in the current two-year

budget period which ends June 30

the state will have spent, in ad-

dition to capital improvements,

\$335 million on education "and it

is still not enough. We will need

more."

Abolish Capital Punishment

DiSalle said he would ask the

legislature in a special message to

abolish capital punishment. His

proposal to eliminate the death

penalty died in the last legisla-

ture. He said he had support in

his effort by a number of com-

mittees and church organizations.

DiSalle again renewed his plea

for a bill spelling out a code of

ethics for public officials, adding

need for this type of legislation.

His proposal in this field, he

pointed out was not even given a

hearing by a legislative committee

two years ago.

He said that by executive order

he had established a code of ethics

for state employees but he felt such

a law should be enacted to cover

elected officials. This, too will be

the subject of a special message.

DiSalle called for a law regulat-

ing campaign expenses and for

another to provide an automatic

recount of elections where the win-

ner's margin was 1 per cent or

less.

DiSalle said he would ask for

changes in the law for filling va-

cancies in the Ohio Senate. Such

vacancies now are filled by spe-

cial elections, which governors in

the past have usually declined to

call because of the expense.

Relating Devore's story to the court, Officer Devon said the suspect reported that he helped pull Mrs. Lisk's car out of a ditch on the River Rd. shortly before the theft. In the process he broke a tire chain, but Mrs. Lisk did not offer to pay him for his help, he said.

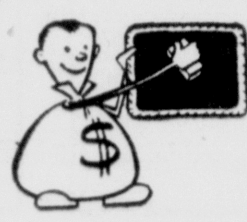

Since she had told him she was on the way to the hospital, he decided to follow her, then got the idea of stealing the tire, he told police.

"How can you be a Good Samaritan one minute and a thief the next?" the judge asked Devore.

"I had two winter-tread tires stolen from me and I guess I was trying to replace the loss," Devore replied. "I felt bad about taking her tire and I intended to return it, but I just hadn't done it."

Presutti served as temporary president for the reorganization. Granville Kester, Michael Baker engineer, made recommendations for new chemicals for the coming year. They will be studied by Presutti's purchasing committee and recommended at the next meeting.

Presutti and his labor committee were authorized to meet again with the water department employees' union representative to negotiate a new contract. The old one expired Oct. 1.

A letter to Michael Baker, commending the work of Kester, was suggested by Dr. Sigal with members approval. Craik, manager, was also praised for his work last year and a notation of commendation was made in the minutes.

Kester reported that work on the water line extension to the sewage treatment plant will begin soon as the contractor is finishing a job in Elmsworth.

Craik and Kester will work on the new tentative budget and revise it and present members with copies. Next meeting will be a dinner event next Wednesday at 7 p. m. at the Esquire Bar.

The five-man authority board includes Sigal, Presutti, Tonti, Leslie B. Roach and Lawrence Cucaro.

# Ann Landers

ANSWERS YOUR PROBLEMS

**Dear Ann Landers:** Two years ago I started to date a pretty woman who was the bookkeeper where I worked. She told me her husband was nice, but not very lively. She also said he was not able to produce children and that she wanted a fling before they adopted a few.

In January of last year she became pregnant and confessed everything to her husband. I thought he'd come looking for me with a gun but instead he was happy as a clam. He thanked me. He said he could forgive his wife because every woman has a natural urge for motherhood.

A 9-pound boy was born in September and he handed out cigars. The girl has stopped seeing me and I'm just an outsider now. When I ask her if I can visit my son she tells me to leave her alone and to say out of her life.

After all, I'm the baby's father and I ought to have some rights. Isn't there a law for people like me? Please print your answer.—**IGNORED DAD.**

**Dear Ignored Dad:** Of course there's a law for people like you — and it goes like this: When a married woman has a child her husband is the legal father.

Since you seem to be such a lover of children, why not find a nice single girl and start over? The biggest favor you can do for that child is to drop out of sight — for good.

## Husband Hunter

**Dear Ann:** Whoever invented the line of baloney, "Work in a downtown office and get a husband," ought to be shot at sunrise.

I'm 30, attractive, a smart dresser, good conversationalist and I've been trapped in this dreary office for nine years. There are plenty of men around but they're too young, too old or they have wives and families. The married gals here wouldn't think of introducing us single ones to anyone they know.

I don't bother to dress up for work any more. No one would notice if I wore a bikini. The pay here is good but I'm bored stiff with the work and all the people around me. What's the answer?—**RUTSVILLE.**

**Dear Rutsville:** Anyone who is "bored stiff" can't be doing a very good job. You're wasting your time and probably short changing your employer. The only difference between Rutsville and Gravesville is the dimensions. Find another job.

## Never Grew Up

**Dear Ann:** My husband goes over to his sister's house two or three times a week. All they do is drink and argue. I used to go along but I just couldn't stand the fighting, so now I stay home and he goes alone.

I know he gets mouthy when he drinks and some of the private things he has told his sister just burn me up. She throws them up to me later in subtle ways and I have to stand there and take it.

Why can't my husband stop going over there? The only break I get is when they have a serious fight and are mad at each other for a few weeks. Please help me.—**GRIPED.**

**Dear Griped:** Your husband and his sister are a couple of sick cookies who are still op-

erating at the adolescent level. They fight now just as they did when they were kids. Tell him to get outside help or you might give him to his sister for good.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Development Group's Head  
Addresses Rotary On Projects

"Think." Some organizations may function in such a haphazard fashion but the St. Clair Township Development Association will "think" in its endeavors.

William A. Black, president of the rural improvement group, underscored the importance of thinking with some thought behind it—not thinking—when he spoke to the Rotary Club Tuesday afternoon in the Travelers Hotel. He indicated "think" was thinking with-out a definite objective.

Black said the organization, previously known as the Calcutta Area Development Association, is pressing for the establishment of a Regional Planning Commission for Columbiana County.

The commission would function to plan and guide growth of communities and cities within the county.

The plan has been discussed with county commissioners, the East Liverpool Planning Commission, City Council and civic groups in Wellsville, Black said.

"Basically, its purpose is to get the people to think—not think—," Black explained. "Constructive thinking is necessary in the area."

"Why a regional planning commission?" Black asked fellow club members.

He pointed out the proposed commission would:

Spread financial problems over a large area with less cost to each taxpayer.

Permit hiring of a full-time planner to think about the region's problems. Good planning sets a definite goal.

It would be able to evaluate each need.

It could establish the basis for

a sound financial structure and eliminate wasted effort.

"The planning commission could plan ahead for large areas, as there are no boundary lines in planning. We would have a group to think about our region's problems," Black pointed out.

Black, division manager of the Ohio Power Co., has served as president of the Calcutta improvement organization for the past two years. Dean Wilhelm is chairman of the organization's planning and zoning committee.

Black was introduced by John Duffy, program chairman.

George Hargraves, president, inducted four new members. The charge was read as George Shaw, Ray L. Clendenning, Richard Kerin and F. Louis Alder became Rotarians.

Hargraves reminded members of the invitation to a Lions Club meeting Friday noon in the hotel to hear a talk by William McKenna, division director of the State Highway Department.

He also reminded club members of a movie, "Operation Abolition," to be screened Monday at 8 p. m. in the auditorium of Westgate Junior High School. The film describes in detail operations of Communists in California in attempting to discredit the House Un-American Activities Committee the past year. The Reserve Officers Association of the Fort Henry Chapter of Wheeling will present the program.

Warden Cites  
Dog Nuisance  
Near Schools

Dog Warden Robert Croyle said today he has received an increasing number of complaints of dogs creating nuisances near school buildings after following their young masters from home.

Planning a crackdown, Croyle said he will impound any animals found in the vicinity of schools. Teachers have complained that the animals are a distraction and that some of the children are afraid of being bitten, Croyle said.

Parents should caution children not to take dogs to school or permit them to follow youngsters, the warden said.

Croyle also reminded dog-owners that Friday, Jan. 20, is the deadline for obtaining 1961 licenses. The charge is \$2, plus a 25-cent annual fee. The warden has the licenses on sale at City Hall Monday through Friday from 9 a. m.

to 4 p. m. and Saturday from 9 until noon.

Persons whose dogs have died should mark "deceased" on license applications mailed them from the County Dog Department at Lisbon, then return the form, the warden warned. If the county office is not advised the dog is dead, it will continue sending forms for the new license, he said.

Croyle said he has three dogs for adoption at the pound at the

sewage treatment plant in West End. They are a female collie, a male border collie and a male short-haired mongrel. The animals are "nice family dogs" and each is about 3 years old, he said.

Out Of The Air

By MARIE TORRE

Children's Show For The Family

Shari Lewis, all 98 pounds of her, has pleaded guilty to subliminal practices in television. Wha' dat? you ask. Subliminal, ya simp, is that which goes beyond the reach of personal awareness, the subconscious, if you will, and this explains how little Miss Lewis turns a children's show into a family show each Saturday morning from 10 to 10:30, a period in which little Nellies and little Johnnies in some 4.5 million American homes urge mama to drop the housework and come sit with them by the TV set.

Marie Torre

This, at least, is what happens at our house each Saturday morning. And it's not always a happy occurrence, we should not, for there are times when household duties beckon and there just isn't time to practice togetherness.

AFTER ALL, one of the functions of the TV set is to act as a baby sitter, isn't it?

Once the adult sits with the kiddies during a Shari Lewis program, however, the experience is inevitably pleasing — warm, buoyant and genuine. It's one of the few children's shows that rate full parental approval, but she isn't content to play only to children. By fashioning a program that "reaches the hearts of children," and thus heightens the yearning for the companionship of mama — and papa, if he's around on Saturday morning — Miss Lewis has created something of an ideal in the way of family television shows.

"WHEN A CHILD is exposed to love," she holds, "he is likely to be loving. When the child is exposed to violence, he is likely to be violent."

"Most children shows fail because they're just for children. One of the most wonderful things that can happen to any family is for all members to have the same frame of interest. To paraphrase the old quote, 'The family that plays together stays together.'"

The motivations behind Miss Lewis' "family" show, it should be noted, are entirely altruistic. She openly admits that doing a children's show as we know it on TV would bore her stiff, she being not interested in children as children, but humor as humor.

SHE DIVIDES humor into these categories: physical and organic; the "every" joke which is understandable to adults as well as children, and the "fey" or specialized humor.

She and her actors — and the puppets named Lamb Chop, Charley Horse, Wing Ding, and Hush Puppy — work with a kind of humor which will reach both adults and children with one essential running theme.

"Children know I respect them and am not looking down at them," she explains. "I think that is, perhaps, most important in a show for children."

Whatever the elements, Miss Lewis has a Saturday morning winner, as the ratings attest, and the letters, and the interest of her sponsor. Last week, Miss Lewis' sponsors promised to support her on TV through January 1962.

AUTHOR Gore Vidal and TV Guide editor Merrill Panitt will represent the United States as jurors at the First International Television Festival in Monte Carlo. The Festival commences Jan. 15.

Barbara Stanwyck, whose anthology series faced an uncertain future for awhile, won a belated Christmas present — a sponsor renewal.

The government collected \$32,077,000 in excise taxes on radio and TV sets, photographs and their components during the quarter which ended on Sept. 30, compared with \$31,108,000 during the same period last year, according to the Internal Revenue Service.

Sam Levenson again pinch-hits for Arthur Godfrey on radio Jan. 23, when CBS' favorite redhead (well, one of 'em), begins a three-week vacation.

A well-deserved certificate of commendation was presented by the Department of Defense to CBS' "The Twentieth Century" for the series' "outstanding service in ably presenting armed forces activities and achievements to the public."

Crucible Aide Named

PITTSBURGH — M. J. Day, vice president, commercial, of the Crucible Steel Co. of America, announced the appointment today of W. B. Downes to a newly-created post to handle executive customer relations for the stainless steel division. Downes will devote his entire time to customer service covering stainless steels and high temperature alloys. Graduating from Rutgers University in 1933, Downes joined Crucible in 1934.

Material Bids Filed In Work At Reservoirs

The Board of Public Utilities Tuesday afternoon took under advisement six bids on materials and equipment that will be required to start a reservoir repair program next spring.

Four concerns submitted offers on 200 tons of premixed sand and cement and 2 filed bids on a "cement gun" with which the repair material will be applied to the reservoir walls. Cost of the first stage of the project has been estimated at approximately \$6,000.

W. O. Schneider, chairman of the board, explained the bids must be computed before the board can make a study and award contracts to the lowest and best bidders.

Day & Maddock Co. of Cleveland filed the apparent low bid of \$1,270 on the cement gun, a device which mixes the sand and cement with water and then applies it to the reservoir walls over new reinforcing wire. The price includes delivery here.

The Airplaco Co. of Kansas City, Mo., filed a \$1,250 offer on a cement gun, but said the city would have to pay for the delivery from the Missouri city. The offer probably will not be considered, as the bidder did not enclose a certified check representing a percentage of his offer to guarantee performance, as the city's legal notice required.

The Cement Gun Co. of Allentown, Pa., offered one of the devices at \$2,199, FOB Allentown.

Bids on the sand and cement mixture were filed by the Milliron Co., the Elliott Coal Co. of Youngstown and the Pre-Mix Corp. of Cleveland. Prices varied according to the ratio of the sand and the cement in the mix.

Milliron quoted a delivered price, while Pre-Mix said it would charge an additional \$5.80 a ton for delivery. The Youngstown concern's bid did not specify if the prices included delivery.

Milliron's prices ranged from \$29.37 to \$36.04 a ton, depending upon the ratio of cement to sand and the quantity delivered in one shipment.

The Elliott Coal Co. prices ranged from \$23.40 to \$25.60, also based on varying specifications. The Pre-Mix Corp.'s quotations ranged from \$15.40 to \$19.80 a ton, plus the \$5.80 a - ton delivery charge.

The water department already has received a \$6,000 appropriation for the project, which will cover repair of the walls of both the Thompson Hill and Huston Hill reservoirs.

Salt For Melting Ice May Damage Lawns

Salt applied to streets, walks or driveways to keep them ice-free may cause injury to trees, shrubs, grass and flowers, Oliver Johnson, Hancock County agricultural agent, warns.

"To avoid such injury, sand can be used on the icy walks and drives," Johnson adds. "Salt-injured trees appear normal in the spring, but in summer, leaves turn yellow and brown and may drop off," Johnson explained.

"Sometimes trees will die. Trees showing this injury are normally found at intersections, or on sloping streets where there is excessive run-off," he added.

Ohio Township Fire Unit Buys New Hose

The purchase of new water hose worth \$587 was reported at a meeting of the Ohio Township volunteer firemen Monday evening in the fire hall.

New officers assumed duties, including George Gailey Jr., president, who presided. A discussion was held on purchasing a new water tank for the department's old truck.

## Veterans Sign For Navy Duty

Two veterans who re-enlisted were among the 6 men who entered the Navy through the City Hall recruiting station in December.

Starting new hitchers are Hubert Ray Ferguson, son of Mr. and Mrs. Eugene H. Ferguson, 1160 Harker Ave., and William Robert Hall, son of Mr. and Mrs. Ralph C. Hall, 1040 Riverview St.

Chief James M. Pattison, in charge of the recruiting office, explained that Ferguson was allowed to retain his former rate of third class musician, as it is one classified "critical" by the Navy. As Hall re-enlisted within 90 days after his previous discharge, he was eligible for a re-enlistment bonus.

Both veterans took advantage of advanced leave to remain at home for the holidays. They will report to the Navy Receiving Station at Philadelphia for assignment.

Also enlisting last month were: Crawford Edwin Rayl, son of Mr. and Mrs. Ralph H. Rayl of 8th Ave., LaCrosse; William G. Bowen, son of Mrs. Thelma M. Bowen, 307 1/2 Virginia Ave.; Terry G. Davis, son of Mr. and Mrs. Charles T. Davis of Salem, and Donald Wayne Hoopes, son of Mr. and Mrs. Billy J. Hoopes of Beloit R. D. 2.

The men will receive 9 weeks' training at the Naval Training Station at Great Lakes, Ill., and then will be given 14-day leaves. Hoopes enlisted under the Navy high school graduate training program, selecting the aviation field.

## Bus Line, Union Ratify New Pact

CLEVELAND (AP)—By a vote of 2,804 to 1,009 a two-year contract covering 4,000 employees of Greyhound Corp.'s Eastern Division has been ratified.

Negotiators for the company and the Amalgamated Street, Electric Railway and Motor Coach Employees Union reported the vote Tuesday.

The settlement, reached last month, is retroactive to Oct. 30 and provides 10-cent hourly pay raises in the first year and 8 cents in the second, along with a 25 per cent increase in health and welfare benefits and some other fringe improvements.

The new contract covers drivers, maintenance men and terminal employees in 15 states and in Washington, D.C., and Montreal, Canada. Drivers previously earned \$2.40 to \$3 hourly, although some who had a combined mileage and hourly rate earned as much as \$6 an hour, the company said.

## Ohio Boy, 13, Hangs Himself Accidentally

ZANESVILLE, Ohio (AP)—William Shaffer Jr., 13, of nearby Dresden, apparently hanged himself accidentally Tuesday while playing with a rope in an out-building at his home. Sheriff Fred Uffner says County Coroner S. S. Daw withheld a verdict.

A 3-year-old brother, Stevie, found the boy hanging by the rope from a 2-by-4 beam. The rope was knotted around William's neck and looped over the beam.

## Jobless Claims Drop

YOUNGSTOWN, Ohio (AP)—The Bureau of Unemployment Compensation reported that claims dropped to 14,400 last week from the previous week's 17,217. New claims amounted to 1,360 compared with 4,727 filed the week ended Dec. 31. At least 4,000 claimants here have exhausted their state benefits and now are depending entirely upon the supplemental unemployment benefits paid by basic steel and other companies here.

## Dillon Will Face Senate's Finance Committee Today

WASHINGTON (AP)—Douglas Dillon, the first of President-elect John F. Kennedy's Cabinet nominees to get Senate scrutiny, goes before the Finance Committee today.

Dillon, a Republican chosen by Kennedy to be secretary of the treasury, appeared sure of a friendly reception despite reports of uneasiness about his appointment among some GOP senators and Democratic liberals.

The Foreign Relations Committee plans a hearing Thursday on a second top Cabinet figure, Dean Rusk, designated as secretary of state.

Orville L. Freeman, Kennedy's choice for secretary of agriculture, goes before the Senate Agriculture Committee Friday.

These sessions are informal since Kennedy cannot submit appointments until he is sworn in Jan. 20.

But, following past precedent, Democratic leaders hope to have all 10 Cabinet choices before the appropriate committees between now and the inauguration, and then have them confirmed almost as soon as their names are sent up formally.

# Steubenville Five Upsets Wellsville, 57-51, With Late Rush

## Beaver Local Coasts To Sixth Victory At Chester, 66-49

### Tigers Dealt 3rd Defeat Of Season

By CHUCK CRONIN  
Review Sports Writer

An almost futile defensive effort, coupled with a disorganized offensive attack, spelled defeat for Wellsville High's Tigers Tuesday night as they fell before underdog Steubenville Central Catholic, 57-51.

The Crusaders trailed throughout the first three quarters but delivered a knockout punch in the final one to sweep a Sectional Class AA triumph before a stunned crowd of 609 at Beacom Memorial gym.

The Victory was the first in the history of the schools that Central has managed on the Tigers' home court. They're scheduled for another visit later this year.

With plenty of height and experience to recommend them for possible greatness, Jack McDevitt's slumping Tigers continue to be the "mystery" club in the area.

Figured early for an outstanding season in the final year of All-Ohio candidate Bob Kiggins, the Tigers now show an unimpressive 3-3 record and have lost a pair of important sectional encounters.

Coach Francis Sebring's Crusaders capitalized on the Tigers' poor defensive work to score their fourth victory in seven games. Hard-driving senior Tom Eroshevic scored 24 points to highlight the upset.

"The zone did it," the jubilant Sebring declared after the action was over. "We decided to switch defenses in the second half and it paid off."

The payoff the Steubenville mentor was referring to apparently was Wellsville's exceptionally poor shooting in the final quarter when the team goaled only three of 18.

Central never led in the game until the final quarter opened as they sailed in front, 42-41, on a set shot by Eroshevic. The Crusaders were never behind again.

Standouts were sparse but Eroshevic's drive shots and the good shooting eye and rebounding ability of Wellsville sophomore Steve Baldwin, 6-foot, 5-inches, gained merit from opposing coaches.

Eroshevic looped a dozen field goals for 24 points to lead Central, while John Kenny collected 13. Big center John Polshaw, 6-3, slowed by an ankle injury, scored eight including two important "bunny shots" in the last two minutes to help decide the outcome.

Kiggins, 6-4 senior, was Wellsville's only scoring threat in the

## WOW! Newell Cagers Hit 70 Per Cent! Bell, Staley, Hutton Pace 8th Win

### Vikings Nail 90-61 Victory At Salineville

It was bound to happen and did. Newell High's red-hot basketball team set the small Salineville gym on fire Tuesday night by hitting on 70 per cent of its shots in a rousing 90-61 victory over Salineville.

### Here's Seventh Grade Schedule For Thursday

4-Potters Bank vs. First National Bank

4:15-Ogilvie's vs. McNutt Insurance

5-Dawson's vs. Hune Co.

5:15-Coca-Cola vs. Curran's.

Coach John Robison's 1960-61 edition, with its well-balanced scoring attack, has been on the verge of exploding all season.

The Vikings took 56 shots and made an uncanny total of 40 to record one of the highest percentages ever turned in by a district team.

Newell's victory string shot up to seven straight, one of the longest in the district, next to Stanton Local's 8-0 mark. The Vikings have an overall 8-1 record, losing only to New Cumberland in the second game of the season.

Four of Newell's starters were high in the double figures. Tom Bell went over his 19-point average and hit for 25 markers against the Indians. Firing his one-handed jump successfully, Bell showed 12 field goals and one charity toss.

Mick Staley and Larry Hutton broke into the 20-point category. Staley fired in 23 points for one of his best night's of the season and Hutton had 22 points to his credit.

Ron Noland, another Newell regular, showed 13 points for the evening.

Salineville, in dropping its sixth game in eight attempts, battled Newell in a close first quarter which ended 16-15 in favor of the Vikings.

Newell broke loose with a rash of 32 points in the second quarter and the rout was on. The half-time score had the Vikings in front, 48-25, and the count reached 69-37 at the end of three periods.

Paul Kelley was high for Salineville with 17. Bud Leatherberry added 14 and Ron Giannone 13.

Newell returns to action Friday night at Weirton Madonna, a team beaten by New Cumberland Tuesday, 78-69.

The all-important tilt with undefeated Stanton Local will be played at Newell next Tuesday.

The Salineville reserves upset Newell's jayvees, 46-35, marking the first defeat for the young Vikings.

CHESTER'S Blaine Pinney (30) flashes his fine defensive skill as he makes a perfect block of the ball on a shot attempt by Beaver Local's Bill Reed (33) in Tuesday night's game at the Chester gym. At the left is Chester's Jerry Smith.

### Pike Pockets 20; Stanton Is Next

BY BOB DUFFY  
Review Sports Editor

Beaver Local moved a step closer to its first winning basketball season and at the same time warmed up for the important battle with Stanton Local Saturday by handing the Chester Panthers a 66-49 setback Tuesday on the West Virginia floor.

Coach Jack Frontone's team, which flashed marked improvement from earlier games, captured its sixth win in seven outings and pushed its winning streak to four straight.

Chester, a young team that can't seem to get going, bowed for the fifth time. The Panthers have two victories to their credit.

The ambitious Beaver Local five ripped Chester's zone defense apart with some accurate outside shooting by watch-charm guard Jim Pike. He finished as the Beavers top scorer with 20 points.

Pike scored nine field goals, mostly on two-handed set shots not seen too often in this day of the jump shot.

The first quarter was tight, with Beaver Local gaining a 14-12 edge when the period ended. The Beavers broke the game wide open in the second period, moving out to a 34-18 margin at halftime. By the end of the third quarter, the visitors were on top, 49-23.

Frontone didn't start his regular pivot star, Mike Durbin. The 6-foot-3 cager was slowed by the flu, but entered the game in the second quarter and went right to work.

In the second period, Durbin dropped in eight points to spark Beaver Local's attack. He finished the game with 13 points.

Balance has been the story behind Beaver Local's success and the points again were well distributed among five players.

Dick Barnhart, following his 22-point performance against Salineville on Saturday, finished with 14 last night. Bill Reed added nine and Jim Banner, who fouled out with 2:29 remaining in the game, contributed seven.

Reed, in addition to his scoring, is Beaver Local's "Go-Go Boy." His all-around hustle marks him as the team's sparkplug.

Chester's starting five only played two quarters. Coach Max Tut-

## Anderson Proves Rebounding Star

Midland High's Leopards remained a strong contender for the Section 8 title Tuesday night after disposing of stubborn New Brighton, 45-41, on the loser's floor.

The triumph was the second in a row for Coach Hank Kuzma's Leopards as they flashed rebound-

ing superiority to capture a close game. The Leopards show a 7-4 season mark.

Veteran Carl Anderson sparked Midland in snaring a dazzling total of 32 of the team's 73 rebounds.

Aloi was the Leopards' big scoring threat with 13 points, while Perkins collected 11. Anderson chipped in with four goals for eight points.

Midland's loop record is 2-0 and the title-deciding game might be in store Friday night as the Leopards meet Beaver, the league leader with a 3-0 mark.

Both Midland and New Brighton had dismal shooting nights with each posting low field goal averages.

The Leopards connected on only 19 of 74 for 25 per cent, New Brighton sank 15 of 62 for 24 per cent.

Leading New Brighton was Harris with 12 points. McNees added 10 and Campbell seven.

Midland enjoyed only a difference of one field goal at the end of three periods, 31-29. The fourth quarter drive of the Leopards bagged the victory.

In the preliminary, the Midland reserves triumphed over New

Brighton's Reserves, 55-39, as Drakulich led the winners with 17 points. Meyers led New Brighton with 12.

### Kuzma Is Mentioned At NCAA Meetings

Hank Kuzma, head cage coach at Midland, was mentioned in Tuesday's NCAA meetings at Pittsburgh in connection with Loyola of New Orleans which was placed on a year's probation.

After Kuzma had led the College of Steubenville to the small college basketball title he accepted the head cage post at Loyola.

He coached at the southern school for only one season and during that time gave a scholarship to a prospect and then returned to Pennsylvania to take a high school coaching job.

The scholarship was canceled by the new Loyola coach William Gardner, which violated NCAA rules.

Loyola, Arizona and North Carolina were placed on the NCAA probation list for violations of the recruiting code.

### Lakers Defeat Knicks, Climb Out Of Cellar

By The Associated Press

The Los Angeles Lakers are beginning to show signs of snapping out of their losing ways. They have climbed out of the Western Division cellar in the National Basketball Association and if they can collar Cincinnati in their next two games they will be virtually tied with the Royals.

The Lakers outlasted the New York Knickerbockers Tuesday night in Los Angeles, 117-104.

## Kiger Nets 28 In 78-69 Victory For Cumberland

WEIRTON — Jim Kiger, one of the smaller men around a basketball court, pumped in 28 points which led New Cumberland to a 78-69 conquest of Weirton Madonna here Tuesday night.

The 5-foot-9 senior dropped in 10 field goals and eight of 12 foul tosses for his total. Charlie Miller and Tom Hale chipped in with 17 and 15 points, respectively, to help the attack.

# 3 Schools Draw 1-Year Probation

## Tar Heels On Black List Stiffer Athletic Code But Tumble Wake Forest Is Placed Before NCAA

By DON WEISS  
Associated Press Sports Writer

The year's probation slapped on North Carolina's basketball team by the NCAA will hurt. The Tar Heels of smilin' Frank McGuire could be the toughest squad assembled at Chapel Hill since McGuire's unbeaten NCAA champions of 1957.

The Tar Heels, seventh-ranked nationally, accepted the news from Pittsburgh that makes them ineligible for this year's NCAA competition, then tumbled Wake Forest out of the Atlantic Coast Conference lead Tuesday night with an 83-74 victory.

It was the seventh in a row and ninth in 11 games for the Tar Heels, who moved up to second place in the rugged ACC with a 2-0 league record to 3-0 for Duke, the nation's No. 8 team.

Unbeaten DePaul rode Howie Carl's sharpshooting to its 11th straight victory, 69-60 over Ohio U.; third-ranked St. Bonaventure

(12-1) crushed Gannon (Pa.) 103-71, and Marquette snapped Detroit's 23-game home court winning streak, 85-63, in other top games on the college schedule.

Texas A&M, behind a 37-point burst by Carroll Broussard, sped into the Southwest Conference lead at 3-0 with an 81-62 decision over Arkansas, and Texas' balanced defending champions got back into the race by landing Texas Tech its first defeat 63-55.

In other SWC games, Steve Smith's 24 points led Rice's 82-60 whipping of TCU, and SMU, with Steve Strange scoring 22 points, handed Baylor its 11th loss in 13 games, 75-64.

Mississippi state won its second straight Southeastern Conference test, 80-63 over Alabama, and Western Kentucky wheeled to its fifth consecutive Ohio Valley triumph, 82-78 over Tennessee Tech.

LaSalle, behind Joe Carey's 22 points, beat Lehigh 77-62 for a 4-0 record that tops the Middle At-

lantic Conference, and The Citadel nipped William & Mary 64-63 in overtime and pulled into a tie with West Virginia for second place in the Southern Conference.

Stanford handed California's slumping Bears their third straight defeat, 53-52, and Oklahoma City (10-4) set a team record with 42 field goals in routing Hardin-Simmons 106-85.

By JIM KENSIL  
Associated Press Sports Writer

PITTSBURGH (AP)—A tougher athletic code than that broken by North Carolina, Arizona and Loyola of New Orleans was before the National Collegiate Athletic Association today.

for a summer job prior to enrollment at the university.

North Carolina came under fire for excessive expenses in basketball recruiting and for paying the expenses of varsity players' parents to the annual December Dixie Classic.

The NCAA said Loyola awarded a basketball scholarship in an unapproved manner, then revoked the scholarship when the boy couldn't make the team.

Today's business session was expected to be a long one. Delegates were hoping it would end before the annual dinner of the American Football Coaches Association.

The AFCA will announce its major and small college coaches of the year. There were eight nominations in each category.

### East 1-Point Favorite Over Western Pros

LOS ANGELES (AP) — The West team is a one-point choice over the East for Sunday's pro bowl. It's the shortest spread for the West in years.

Ordinarily, the team representing the Western Conference of the National Football League rates a three to seven-point edge over the Eastern Conference representative.

The West has responded by winning 6 of the first 10 pro bowl games.

The game this year features two fine quarterbacks — Johnny Unitas of Baltimore for the West and Norm Van Brocklin of Philadelphia for the East.

Baltimore's running attack collapsed late last season and with Alan Ameche out, defensive units against the Colts were able to contain Lenny Moore on sweeps and gang up on Unitas and his receivers when he took to the air.

Unitas will have adequate ground power Sunday—and a top-notch fullback in Jim Taylor of Green Bay.

Van Brocklin passed Philadelphia to the NFL title and the Eagles won nine games in a row after losing the season opener.

**Cincinnati Redlegs Sign 4 More For 1961**  
CINCINNATI (AP)—The Cincinnati Reds today reported signing four more men for 1961—pitchers Marshall Bridges, Marv Fodor and Harvey Alex and second baseman Tommy Harper.

Bridges, a southpaw acquired from St. Louis during last season, won four games without a loss for the Reds, all in relief, and had a 1.08 earned run average.

### Johnston Buys Club In Texas

By MIKE COCHRAN  
DALLAS, Tex. (AP) — Graying, soft-spoken Ray Johnston, a little man with big aspirations, Tuesday purchased for an undisclosed sum the Dallas-Fort Worth baseball franchise in the American Association.

Johnston, 45, for five years general manager of the league's Indianapolis club, left little doubt as to his plans for the Rangers' futures — a berth in the major leagues.

"This is a No. 1 baseball area," he said at a press conference. "If we put an exciting ball club on the field I don't think we have anything to worry about — eventually we'll make the major leagues."

J. W. Bateson of Dallas, club co-owner along with Amos Carter Jr. of Fort Worth until Tuesday, predicted a major league franchise "within a year or two, and at the most not more than three."

Johnston said when the time comes he could if necessary bring in fast the "right people" to help solidify a franchise in the majors.

There was little sympathy expressed by the small ones when North Carolina, Arizona and Loyola each were placed on probation for one year by the NCAA Council.

Preliminary round table discussion on the key legislation indicated the smaller schools, which dominate the sprawling organization, feel it is up to the institutions and their conferences to legislate the question of athletic eligibility.

North Carolina and Loyola, as part of their probation, were barred from postseason championships and other basketball tournaments cooperating with the NCAA. Arizona, whose guilt came from football violations, received probation only with no additional sanctions.

Arizona's probation stemmed from regular monthly cash payments to football players, conducting an in-season tryout for a football player and transporting a prospective player to the campus

### Grease Burns Woman's Eye

A city woman and man who suffered eye burns in separate mishaps were among seven area residents treated at City Hospital Tuesday.

Mrs. Eck Quinn of Smiths Ferry Rd. was treated last night for first degree burns of the right eye suffered when hot grease struck her face.
